Art Unit: 1762

1. The following is an examiner's statement of reasons for allowance: applicants have resubmitted the terminal disclaimer (TD), with an attorney of record now signing, such that the TD effectively removes the obviousness doubled patenting rejections over patent numbers 6,665,033, 6,485,614 & 6,519,018. Also, in the remarks of the 5/26/2006 response the statements of common ownership at the time of the invention are effective for removing the rejections over patent numbers 6,061,114, 6,682,786 & 6,519,018, as the remarks are also now signed by an attorney of record.

It is further noted, that an update (plus) of the search provided further copending IBM cases to Nakano (6,611,307 B2) & Samant et al. (6,313,896 B1),, which well directed to ion beam methods for it affecting liquid crystal alignment layers, do not teach or claim gases as claimed in the present case. The patent application publication to Choo et al. (2004/0201806 A1), is of interest for employing consecutive atomic beam irradiation treatments applied to an alignment layer, but is noted to not be prior art

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marianne L. Padgett whose telephone number is (571) 272-1425. The examiner can normally be reached on M-F from about 8:30 a.m. to 4:30 p.m.
